

SEWA Activity – Herb Garden

JULY 2021

Period – 1

“The love of gardening is a seed once sown that never dies”

- **Gertrude Jekyll.**

To develop a sense of oneness with nature and awareness of the toil of growing the food in students, Delhi Public School, Bopal – Ahmedabad held the first session of HERB GARDEN ACTIVITY under the SEWA project, in the month of July 2021 for class IX & X , through the online medium. The first period was dedicated to an overview of the tasks the students need to perform for making a herb garden at home with simple materials and seeds available to them. The task of herb garden activity was under the supervision of the biology teacher who explained the topic and gave more examples. A small video was shared with the students to show them how sowing of seeds of various herbs can be done.

It is going to be an activity continued till the herbs grow and students can harvest the fruits from them. Students would document their journey by keeping photographs of theirs during each stage of their journey.

The activity will generate in the students affection towards gardening and plants in students.
