

## WORLD NATURE CONSERVATION DAY-2021

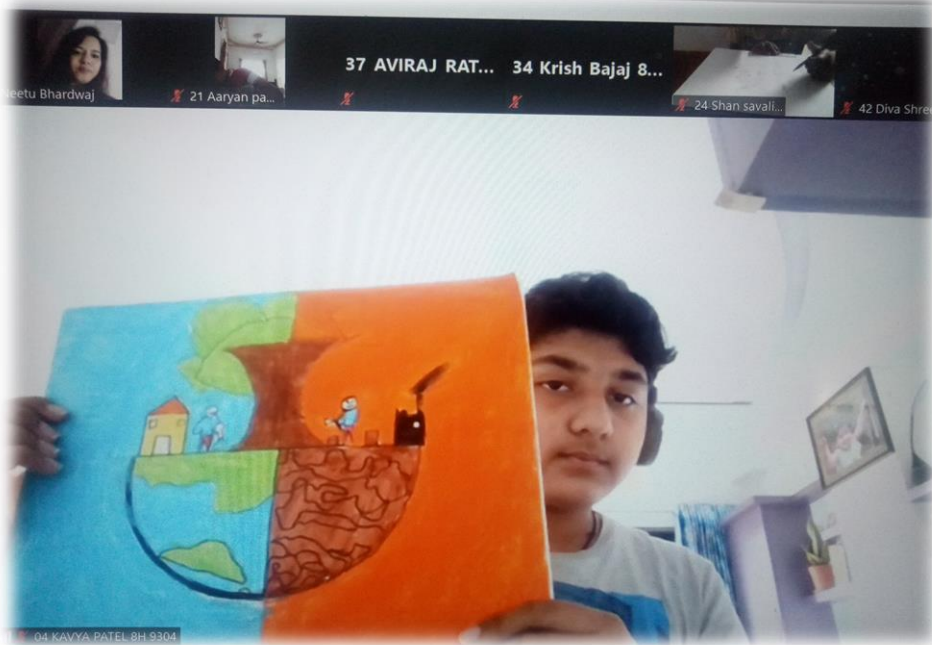

*'The environment is in us, not outside of us. The trees are our lungs, the rivers our bloodstream. What you do to the environment, ultimately you do to yourself.'*

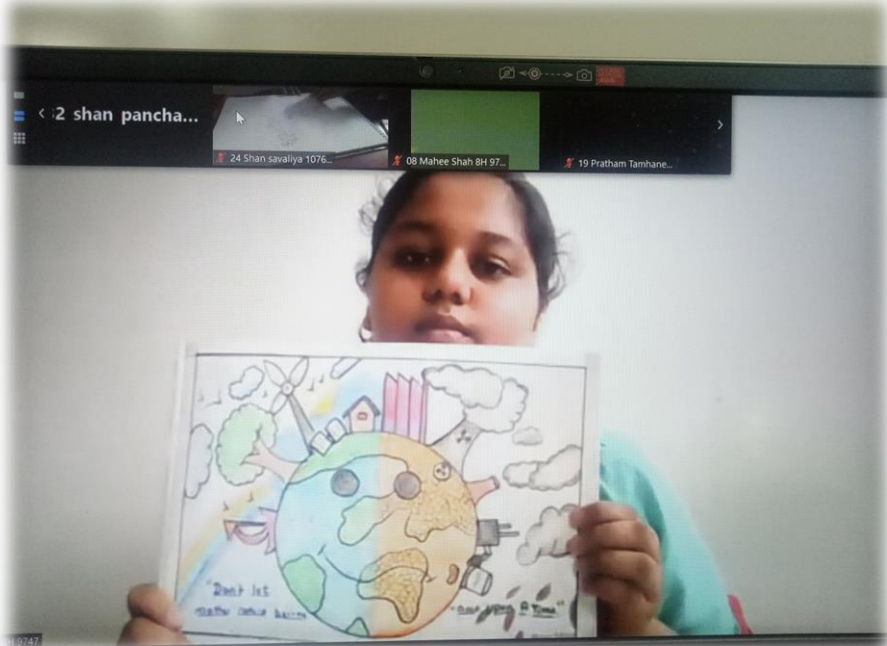

To celebrate this, English Department of Delhi Public School-Bopal organized different activities for the students of grade 8 on July 28, 2021.

This day is observed every year on July 28 to educate people about the best practices to protect our natural resources. Teachers discussed with the students the importance of this day explaining that our planet the earth has only a limited amount of resources left that we hugely rely on each day like water, air, soil and trees. Students wrote slogans, dialogues, poems, and stories based on this theme. They even illustrated the significance of this day with comic strips.

Celebrating this day helped to create and increase awareness about the importance of natural resources and how one can live sustainably. It encouraged students to save and protect Earth's natural resources that are fast-depleting owing to over-exploitation and even misuse.

**POEM**      Date: .....

Days went bright, Night went dark,  
 People use light, stars went out ;  
 We consume earth, yet people think alot  
 We don't provide, we take it all ;  
 Mother nature is dying, yet people are  
 smiling ;  
 Artificially world went great, naturally  
 its dying ;

Energy cannot die,  
 People said let's consume it all and fax the by  
 People see darkness, I see light of hope  
 People fear not to return, I feel  
 we should pull the rope,

Greed is a cause, curiosity wants more  
 I have love so, I share it to earth's core

Days went bright, Night went dark ;  
 So I say to myself,  
 what a magnificent world.

**Conserve  
 Our  
 Earth**
