

## EARTH DAY 2021@DPS-Bopal,Ahemdabad

Every year on April 22, Earth Day marks the anniversary of the birth of the modern environmental movement in 1970. The theme for Earth Day 2021 is 'Restore Our Earth' which focuses on natural processes and emerging green technologies that can restore the world's ecosystems.

To celebrate this, Social Science Department of Delhi Public School-Bopal organized different activities for grade VII on April 22, 2021. The students participated with lot of enthusiasm and zeal in various Earth Day activities. They made Earth Day E -cards, spoke about the celebration and its role in bringing effect to the environment, various ways to bring about a change and the role of students in providing a voice to this emerging environmental consciousness.

The evening was made more informative with a live Virtual panel discussion on Environment Conscious Living. The Green Warriors, Green teachers and admin staff of DPS-Bopal were a part of this wonderful discussion. The panelists threw light on various sensitive issues like climate change, global warming, extinction of important species and Carbon footprint. They spoke about 3R's and our role towards environment and sustainable goals. The importance of 'Conservation' was explained by giving some practical and real examples.
